

April 15, 2021

To all students

Student Support Division

Second Message, 2021 Academic Year
Measures to Prevent Covid-19 Infection in Classes and on Campus

As in other countries, coronavirus infections are rapidly spreading in Japan.

To prevent infection, be mindful of these precautions when attending classes or staying on campus.

- Always carry your student ID card, and when going on campus, present it at the guard station.
- On campus, wear a mask.
- When seated, or even when you are in motion, be sure to stay a safe distance from others (at least 1 meter).
- Avoid loud conversations.
- Monitor your health by taking your temperature every morning and entering your physical condition in the [Health Check Sheet](#) (Excel file). Also refer to the [Recent Personal Activities sheet](#) (Excel file) and record your routine activities.

Each of us must be aware of the precautions listed above to prevent Covid-19 infection. Be very careful both on and off campus.

If you still develop any symptoms such as a fever (generally 37.5°C or higher), cough, difficulty breathing, fatigue, or abnormal sense of taste/smell, do not go on campus. Contact the relevant office mentioned below.

For details, refer to the following messages on the university's "About our correspondence to novel coronavirus infection" webpage.

- [Student and university response in matters involving coronavirus infection, published on March 26, 2020, and updated on November 4, 2020](#)
- [Regarding measures for the prevention of Covid-19 infection when attending classes, published on July 20, 2020, and updated on December 14, 2020](#)
